

17th International Conference on Cancer Science and Radiation Oncology

Stefan Glueck

Vice President, Oncology, Celgene Corporation, USA, E-mail: sgluck@celgene.com

We take huge pride to announce 17th International Conference on Cancer Science and Radiation Oncology which is going to take place at Singapore on 27-30 July, 2020

[Radiation Oncology 2020 YRF](#), provides a novel platform for Young Researchers/Investigators for presenting recent researches with an in-intensity analysis. Radiation Oncology 2020 Conference cordially invites Young Researchers from Universities/Institutes/Industries to present an oral or poster presentation. The Young Researchers Forum provides an opportunity to the budding and young researchers to meet and discuss research topics and approaches to share and develop ideas, acquire from one another and advance knowledge from high-ranking researchers.

All the talented Young researchers, scientists, Post-doctoral fellows, Young Investigators, Post-Graduate students, Trainees, Junior faculty will be awarded in the acknowledgment of their outstanding contribution towards the conference. The Young Researcher Award takes every effort in providing a solid development opportunity for initial career academicians by meeting professionals to discuss and share their experiences on all aspects of Cancer Science and Radiation Oncology

It gives an awesome stage to cover recent breakthroughs in [Cancer Biology](#), [Oncology Causes and Diagnosis](#), [Radiation Oncology](#), [Radiation Therapy](#), [Cancer Chemotherapy](#), [Medical and Radiation Oncology](#), [Cancer Science and Therapy](#). The conference will create a matchless experience for the participants.

Benefits of Radiation Oncology 2020 YRF

- Showcase your recent research by oral presentations.
- Learn about profession development and the latest research gear and technologies in your field.
- This discussion board will supply pertinent and timely details to the individuals who conducts studies and those who use and benefit from research.
- Develop a foundation for collaboration among younger researchers.
- The forum will provide an opportunity for collegial interaction with other young investigators and established senior investigators throughout the globe.
- Interact and share thoughts with both peers and mentors.
- Opportunity for young researchers to learn about the research regions in their peers to grow their capability as
