SAVE THE DATE CLINICAL PHARMACY 2020

It's an honor to welcome all the participants across the globe to be a part of "International Conference on Clinical Pharmacy and Clinical Research" during September 30-October 1, 2020 at Edinburgh, Scotland.

Join us on the September 30 to October 1, 2020 at Edinburgh to receive the latest sector updates from leading speakers and network with thousands of professional peers.

We are pleased to announce there will be some new exciting event features and developments to our learning platforms for 2020.

CPC will provide you and your team with an unmissable opportunity to keep up to date with the latest pharmacy developments to help you improve patient outcomes.

Every year we bring together thousands of clinical pharmacy professionals to enhance their learning and networking opportunities. We would be delighted if you would join us 30th September-1st October 2020 across the two most important days in the pharmacy calendar.

It's an honor to welcome all the participants across the globe to be a part of "International Conference on Clinical Pharmacy and Clinical Research" during September 30-October 1, 2020 at Edinburgh, Scotland.

Clinical pharmacy and clinical research 2020 would be a great opportunity for people associated with clinical research, clinical trials, pharmacology, pharmacy practice, clinical pharmacy, Pharmacovigilance & drug safety, to represent their research works. Associating with the International conference will be an incredible opportunity to interact with the eminent personalities in the field of Clinical pharmacy and clinical research and know more about the advancements in the field.

We heartily welcome all the participants throughout the globe to participate in the conference titled 'International Conference on Clinical Pharmacy and Clinical Research'

Clinical Pharmacy 2020 Conference is a multidisciplinary program focused on finding out about clinical research and its advances, with extensive cooperation with individuals from around the world.

This stage is your best chance to reach the largest gathering of members from the group of Clinical Pharmacists from the academic community, clinical scientists, medical gatherings, associated affiliations, social orders, and also from government offices, drug specialists, and therapeutic gadget businesses.

Clinical pharmacy describes the activities of the pharmacists done in order to elevate pharmaceutical care and medications for the promotion of health care and disease prevention.

It has a promising history of upgrading the practices through new approaches and innovations. Clinical Pharmacy is more of a patient-centered discipline.

The field of Clinical pharmacy is not bound to certain specific areas but has a reach toward other medical fields such as cardiology, oncology, Nephrology, internal medicine, Nanotechnology, Nano Medicine and much more.

This Clinical Pharmacy and Clinical research Congress is orientated to witness the conglomeration of efficacious young researchers, academic scientists, and scholar students to make the conference a great platform for exchanging of innovative ideas and experience the vogueish technologies in Clinical Pharmacy & Clinical research worldwide.

I hope you will have an interesting and informative time in our Conference.

MARKET ANALYSIS:

The target of the Global Clinical Pharmacy Market is to hit USD 146.41 trillion from USD 113.44 trillion by 2022, at CGAR 5.2 billion. Pharmaceuticals account for 12% of Austria's total healthcare, which also accounts for \$6 trillion per year or \$550 per capita. Four percent of the annual growth rate was

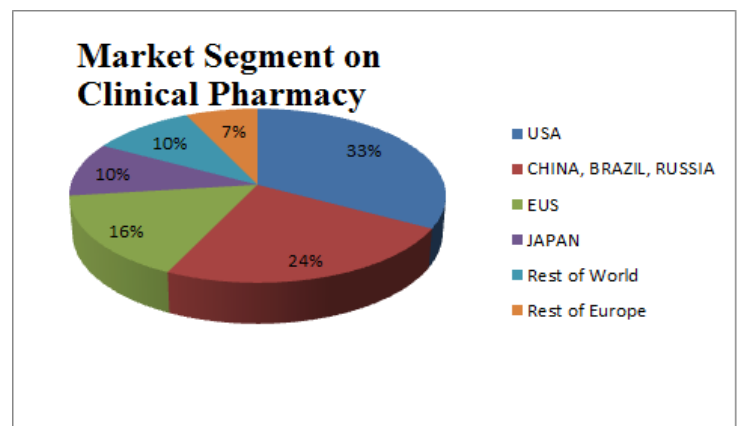

expected over the next few years.

Demand drivers for pharmaceutical are-
• aging population
• Rapid pharmacological technology advances
• Price constraints.

In Austria, the hospitals account for 32 percent and the clinics and the dispensing physicians account for 78 percent.

In Austria, there are currently 336 pharmaceutical and biotech organizations with responsibilities, of which 175 are R&D and producers and 161 are deal / benefit / providers. All of the major multinational organizations in Austria have deals / dispersion auxiliaries, and a few additions have both R&D and assembly offices. Austria is also home to its own small and medium-sized brands, including popular generics and homeopathic / normal cure manufacturers.

Here you can find an index of life science organizations in Austria. U.S. pharmaceutical products have achieved incredible results and are believed to be at the forefront of therapeutic innovation.
