

## 2nd International Conference on Polymer Chemistry

### Paola Fabbri

Associate Professor, Materials Science and Technology, DICAM - Department of Civil, Chemical, Environmental and Materials Engineering School of Engineering and Architecture, Bologna University, Italy), E-mail: [p.fabbri@unibo.it](mailto:p.fabbri@unibo.it)

#### Past Conference:

At last our conference named on "2nd International Conference on Polymer Chemistry" held on May 20-21, 2019 at Rome, Italy hosted by Allied Academies with the theme of "Exploring Recent Advances and Applications in Polymer Chemistry" was concluded with successful result with huge response.

The conference was initiated with the Excellencies of the keynote Speakers:

**Title:** Chemical tools for selective detection of Monomethyl lysine PTMs

Monika R, USA, mail: [mzr0068@auburn.edu](mailto:mzr0068@auburn.edu), (334)-844-6986

**Title:** Porous polymers and metallic nanoparticles: A hybrid wedding toward innovative supported catalysts

Daniel Grande, France

We are enthusiastically put forward to organize "[World Congress on Biopolymers and Bioplastics 2020](#)" Congress which will be held during May 12-13 2020 Budapest, Hungary. The main theme of the conference is "Lightening of new researches and innovations towards [biopolymers](#) and bioplastics" although we get wonderful response for our previous conference. It's a pleasure to introduce forward step of our conference.

Biopolymer Congress 2020 providing an opportunity for all eminent speakers Scientists, Engineers, Researchers, Students and Leaders from the fields of [Polymer Science](#), plastics, Green technology, medical, and Biomaterials from all over the world to fulfill their network, and understand new scientific research innovations in Biopolymers and Bioplastics technology. It is also a sensational platform for researchers, practitioners and educators to present and discuss the most recent advances, trends and concerns as well as practical challenges and solutions. It will also collaborate world-class Directors, Professors, Scientists and Researchers to discuss the multidisciplinary field with research and interests covering all aspects of recent Biopolymers and Bioplastics.

Allied Academies is started in the year of 1994. The main aim of this organization is to conduct conferences and publish articles within the realm of business and

management. We are looking for young researchers, eminent persons from the academic and business executives to achieve success for the growth of the scientific community from all over the world. By 25 years of excellence, we supposed to provide the best keynote speaker, best speaker, and best poster awards and are facilitated with certificates.
