

35th European ophthalmology congress.

Suzane Taylor*

Managing Editor, *Ophthalmology Case Reports*, United Kingdom

Accepted on June 30 2021

About Conference

The world's largest Ophthalmology Conference and Gathering for the Research Community. Join the 35th European Ophthalmology which is going to be held during Congress October 27-28, 2021 at Zurich, Switzerland. On behalf of the organizing committee, we hope you will join us for an exciting meeting!

About

35th European Ophthalmology Congress unites a one of a kind and universal blend of extensive and medium pharmaceutical, biotech, and analytic organizations, driving colleges and clinical research establishments making the gathering an ideal stage to share involvement, cultivate joint efforts crosswise over industry and the scholarly world, and assess developing innovations over the globe.

Euro Ophthalmology 2021 augments the chance to interface with and gain from your associates from the nation over and over the globe it had with the discourses on Retina and Retinal Issue, Cornea, Outside Eye Ailment, Neuro-Ophthalmology, Glaucoma: Visual Field Misfortune, Visual Microbiology, and Immunology, Novel Ways to deal with Ophthalmology, Therapeutics and some more.

Objective

We aim to provide cataract surgeons, refractive surgeons, optometrists, opticians, young researchers, students, industrial delegates, and anyone professionally involved in the study of cataract and refractive surgery with an opportunity to learn about the complexity of the disease, discuss interventional procedures, look at new and advanced cataract removal practices and their efficiency and efficacy in the treatment of various refractive errors and cataract extraction, and understand local realities and practical constraints in improving vision-care.

About Organizers

The conference has enhanced and highlighted features of scientific partnerships and alliances with development agencies, Institutes, leading research organizations, non-government organizations, and other entities to promote development-oriented research across the globe through live streaming, B2B, and Scientific Meetings. Medical Conferences provide an excellent opportunity for budding scientists and young researchers through their special initiatives like the Young Researcher Forum, Poster Presentation, and E-poster.

Conference Highlights

- Ophthalmology
- Glaucoma: A Vision Loss
- Retina And Retinal Detachment
- Cornea Disorders and Treatments
- Ocular Oncology
- Cataract
- Macular Degeneration
- Pediatric Ophthalmology
- Dry Eye & Low Vision
- Eye tumors
- Neuro-Ophthalmology
- Ophthalmology surgery
- Diabetic Retinopathy
- Thyroid Eye Disease (TED or Graves Eye Disease)
- Diagnostic & Therapeutic Instruments used in Optometry and Ophthalmology
- Medicine in Ophthalmology
- Ophthalmic Genetics and Gene Therapy
- Refractive Errors In Children
- Strabismus
- Uveitis

Target Audience

- Ophthalmologists, Optometrists, Opticians, Doctors, Researchers, Students, Industrial Delegates from Academia and Research along with the industrial professionals from biomedical companies and healthcare sectors.
- Clinical researchers & Scientists
- Public Health Professional
- Ophthalmic surgeons
- Retina and Retinal Surgery
- Glaucoma
- Optometrists

- Medical Practitioners, Professors, Deans, Students & Technicians
- Medical & Health care Organizations & Associations
- Researchers & Scholars
- Idiopathic Intracranial Hypertension-Ocular Migra
- Diagnostic Instruments in Optometry
- Share the ideas with both eminent researchers and mentors.
- Young Scientist Award reorganization certificate and memento to the winners
- Young Scientists will get appropriate and timely information by this Forum.
- A platform for collaboration among young researchers for better development
- The award should motivate participants to strive to realize their full potential which could, in turn, be beneficial to the field as a whole

Young Scientist Benefits

- Our conferences provide the best Platform for your research through oral presentations.
