

4th World Congress on Neonatology and Perinatology

Edith Cyrill L. Caysido

Baguio General Hospital and Medical Center, Philippines

Past Conference Report

Neonatology 2019 conference has been successfully completed the 4th Edition. We must thank the attendees, Hesperia Barcelona Del Mar, Conference Centre Staff, the Organizing Committee, Ad-Sponsors, Media partners and everyone else that helped to make this 4th World Congress on Neonatology and Perinatology with the theme Assessing the newborn physiology during the transition from fetal to newborn life a huge successful conference.

Attendees and Participants of Neonatology 2019 got the sort of development specialized ideas in the field of Neonatology and Perinatology that they were looking for, and that their job in the field has been upgraded through their cooperation. They had the option to participate in every one of the sessions and utilize the enormous progressions in Neonatology and Perinatology that researchers and analysts are working with.

The Majorly Focused Highlights for our Neonatology 2019 Conference were Neonatology, Neonatal Neurology, Neonatal Surgery, Neonatal CNS Disorders, Neonatal Hepatology, Neonatal Syndromes, Newborn Screening Technology, Neonatal and Fetal Nutrition, Neonatal Infectious Diseases etc.

Some of the Eminent Pediatrics Healthcare Professionals were the Organizing Committee Members for Pediatrics Healthcare 2019 Hence, Neonatology 2019 gave justice to the theme “Assessing the newborn physiology during the transition from fetal to newborn life”
