E-mail: a.sefalian@gmail.com

Wound Care 2020 would offer a great opportunity for wound care nursing, tissue repair, tissue science community to depict their research work. Taking part in the International conference will be a wonderful chance to meet eminent personalities in the field of Wound care, nursing and tissue repair specialist and know more about the advancements in the field. Professional Level

To make a difference again! 4th Series of Wound Care 2020 with the theme "Emerging and Innovative Approaches for Wound Healing and Tissue Regeneration" starting on June 08-09, 2020 in London, UK

This year Wound Care Conferences with 10 + keynote talks, 50 + plenary lectures, 10 + Young Research Forum lectures, 20+ poster sessions are planned as two days of engaging, exciting discussion. In addition, 3+ workshops and 2+ symposia will take place. We do plan to give professional presentations and a range of forums for informal networking

Salient Features:

- Promise to offer the highest standards of wound care that meet our participants' expectations.
- Engage with the world's great scholars.
- The Wound Care Congress sessions have had a highly innovative and beneficial impact on all of our health professionals who work daily in contact with skin wounds.
- Serve as career guidance and inspire young researchers to earn awards.
- Perfect global networking platform through conferences on wound care
