Allied academies organizing “**4th International congress on Chemistry and Catalysis**” going to be held in Vienna, Austria in the month of July 13-14, 2020 with a theme “Investigating Process Research and Development in Chemistry”.

The aim of World Chemistry 2020 is to promote quality research and real world impact by bringing cooperation among the Scientists, industrial heads, doctors and international communities to discuss the latest developments in the field of Chemistry and Catalysis and primarily concentrate on Organic Chemistry, Inorganic Chemistry, Analytical Chemistry, Green Chemistry, Medical Biochemistry, Physical Chemistry, Biological Chemistry and many.

The Chemistry field assembles a broad range of scientific disciplines to get, design, delivery, disposition of latest drugs and therapies. The scope of those gatherings is extended by remarking key regulatory areas like Petro chemistry, Green Chemistry. This subject had a good scope and makes it possible for scientists to learn more about chemistry and catalysis properties as well as cell differentiation from specialized types.

Vienna is a beautiful city with many tourist attraction places and it's a best place to explore. It is the national capital, largest city, and one of nine states of Austria. Vienna is host to several major international organizations, as well as the United Nations, OPEC, and the OSCE. Vienna is understood for its top quality of life. The city has warm summers, with periodical precipitations which will reach its yearly most in July. Capital of the Republic of European country and one amongst Europe's most visited cities, national capital (Wien) owes abundant of its charm and wealthy history to its splendid location on the banks of the Danube River. Vienna continues to attract guests with its several nice historic sights, fabled collections of art, glittering palaces, and exceptional musical heritage that's still carried on together halls and one of the world's great opera houses. The city of national capital attaches major importance to science and analysis and focuses on making a positive setting for analysis and development.

### **Supporting Journals:**

- Journal of Chemical Technology and Applications
- Journal of Pharmaceutical Chemistry & Chemical Science
- Journal of Industrial and Environmental Chemistry
- Journal of Clinical and Bioanalytical Chemistry
- Journal of Biochemistry and Biotechnology

One of the Organizing Committee Member for upcoming conference is Clara Smith from Sorbonne University, France

Aliza Williams | Program Manager
