

## Announcement of International Conference on Applied Clinical Research Technology 2020- 2020 conference announcement

Constantina Lekakou, The University of Surrey, UK, E-mail: [c.likakau@surrey.ac.uk](mailto:c.likakau@surrey.ac.uk)

The [Clinical Research 2020](#) Organizing panel is committed towards the assemblage of International Conference on Applied Clinical Research Technology scheduled to take place from **May 15-16, 2020 at Edinburgh, Scotland.**

Clinical Research 2020 is a great way to learn new skills, get inspired by successful Clinical Research entrepreneurs and master trainers and build a great network of fellow professionals. One of the big draws for a clinical researcher professional in attending this conference is the opportunity to earn Continuing Medical Education (CMEs). CMEs are required by accredited organizations to maintain a person's competency and certification in their chosen area of clinical research.

The Conference is aimed with the ultimate intention to focus making an interpretation of clinical research advances into human benefits and to address current trends for better future. With individuals from around the globe concentrated on learning about clinical research and its advances, this is your best chance to achieve the biggest amalgamation of members from the partnered areas.

[Clinical Research 2020 Conference](#) is the commencement of exploring the different paths to utilize various resources for upliftment of the future, assuring a better tomorrow for the generations to follow. [Edinburgh Clinical Research 2020 Conference](#) is expected to be one the best scientific conferences in world in the coming years. The scientific sessions in this International Scientific Colloquy have been framed on vivacious topics such as Clinical Research, Nursing, Technology, Medicine and the event will consist of well-organized scientific program and effervescent speeches by the expertise.

[Scotland Clinical Research 2020 Conference](#) sets the right track for the researchers and professionals to gather and confer around new medical science developments and applications. The primary goal of the conference is to promote research and developmental activities in Clinical Research and Technology. Also, the other motto of this grand event is to promote scientific information interchange between researchers, engineers, developers, students and practitioners working worldwide. The conference will be held at regular intervals to make it the best platform for all the attendees to share views and experiences in Clinical Research and related areas.

Besides having a fruitful conference, you shall relish the scenic beauty of this lovely city, Edinburgh as it is the home to many several number of cultural attractions, which includes Edinburgh Castle and the Royal Mile, Loch Lomond, Cruising Loch Ness and the Caledonian Canal, The Royal Yacht Britannia, etc., Exploring Scotland by boat, on foot along its trails, on scenic train rides, or touring by car, and each will lead to unforgettable experiences. History prevails everywhere as you come across

this great city especially in castles and fabled battlefields, literary trails blazed by Robbie Burns and Sir Walter Scott.

Be a part of this grand event by soliciting your precious time by enrolling yourself through submitting your abstract at <http://clinicalresearch.alliedacademies.com/abstract-submission>

As this is the first edition of this series, there is no past conference photos.
