

## Announcement

Webinar on Biotechnology strives to spread knowledge and create amazing platforms for like-minded professionals to explore themselves very special day in the diminutive yet Virtual Conference. Biotechnology 2020 is extremely passionate in creating connections and conversions among research scientists and young leading experts to integrate among individuals, and leading companies to connect, communicate, cultivate, and convert research ideas elegantly and efficiently for human mankind. The supreme goal is to provide a best platform for professional connections among individuals, entrepreneurs, and business owners to create and build a strong steady stream of leads, prospects and sales.

Conferenceseries LLC Ltd inviting you a warm invitation to attend Euro Biotechnology 2020. It is focusing on 'Novel Advancements and Progressing Technologies in Biotechnology' to enhance and explore knowledge among Biotechnology and Genetic and Gene Therapy field to establish corporations and exchanging ideas. Providing the good platform to present Keynote talks, Plenary sessions, Discussion Panels, B2B Meetings, Poster symposia, Video Presentations, and Workshops. Scientific sessions of Euro Biotechnology 2020 include Gene Editing and Gene Therapy, CRISPR Based Technologies and Bio-products, AI in Medical, Biotechnology, Adipose Stem Cell Technology, Microbial/Industrial Biotechnol-

ogy. Euro Biotechnology meeting with Keynote Session, Oral Session, Poster Session, Young Researchers Session and Exhibitor Session.

London is the capital and largest city of England and the United Kingdom. The city stands on the River Thames in the southeast of England, at the head of its 50-mile (80 km) estuary leading to the North Sea. London has been a major settlement for two millennia. Londinium was founded by the Romans. The City of London, London's ancient core and financial center – an area of just 1.12 square miles (2.9 km<sup>2</sup>) and colloquially known as the London Assembly.

Euro Biotechnology 2020 has been concluded with the discussion on Genetic Engineering, CRISPR Based Technologies and Bio-products, AI in Medical, Biotechnology, Adipose Stem Cell Technology, Microbial/Industrial Biotechnology. Attendee includes companionship of our Organizing Committee Members, Keynote Speakers, Oral and Poster Presenters. With the unique feedbacks from Euro Biotechnology 2020 would like to announce the commencement International Conference on Genetic Engineering and Gene Therapy during November 15-16, 2021 in TEXAS, USA based on the theme "Emerging New Innovations Learning the Latest Trends in Genetics".
