

Collaboration of a cosmetologist doctor and a permanent makeup master

Ella Elagina

Medical Center Health + Beauty, Magnitogorsk, Russia

Abstract

Our joint presentation clearly shows those magnificent results that can be obtained with the joint work of a cosmetologist and a master of permanent makeup.

Big cities, a fast pace of life, a cult of youth and beauty. Success in a career and in life in many respects depends on appearance. At any time, at work and on vacation. Permanent makeup, together with the work of a cosmetologist, help solve this problem.

It always looks great, under any circumstances.

Self-confident, impetuous, and always in shape!

Like a modern woman.
