

Conference Announcement Agronomy 2021

We are pleased to welcome you to the “Agronomy 2021” after the successful completion of the series of pathology Congress. The congress is scheduled to take place in the beautiful city of Osaka, Japan. This Plant Pathology 2020 conference will provide you with an exemplary research experience and huge ideas.

Agronomy is a branch of Agricultural science concerned with the prevention, diagnosis and treatment of infectious diseases. Moreover, this field of science is concerned about various Farm applications of microbes for the improvement of Soil health.

Agronomy focuses on the isolation and characterization of infectious organisms so they can be managed and treated in patients..To diagnose an infection, a sample must be collected from a patient at a body site where the detection of a pathogen or its associated biomarkers is likely to signify disease.

Agronomy 2021 is focusing on “Exploring Innovative Research in Agronomy 2021” to develop and explore knowledge among the Agronomy community and to launch new businesses and swapping ideas. Providing the right stage to present thought-provoking Keynote talks, Plenary sessions, Discussion Panels, B2B Meetings, Poster symposia, Video Presentations, and Workshops. Agronomy 2021 foresees over 200 participants from 7 continents with revolutionary subjects, discussions, and expositions.

This will be a marvellous viability for the researchers, students and the delegates from Universities and Institutes to intermingle with the world-class Scientists, speakers, technicians and Microbiology Practitioners and Industry Professionals working in the field of Agronomy system. To enhance the field and make people aware of it.

We would like you to share, extend and impart your valuable thoughts to the global scientific event set to happen in Texas this year as we start to prepare the dais for a grand discussion.

The organizing committee decided to hold a conference. Agronomy is one of the fast growing and developing areas of surgery.

People who have missed attending the past conference are most welcome to present your research ideas at the Agronomy 2021 This conference will help you improve networking with eminent people in the field of Plant Pathology.

International Conference on Agronomy and Agricultural Techniques will be scheduled in Singapore city, Singapore during September 24-25, 2021 which includes prompt keynote presentations, Oral talks, Workshops/Symposia, Poster presentations, and Exhibitions. The theme of the conference is around, “Discovering New Challenges in Agronomy and Agricultural Techniques”. Agronomy Congress is the premier event that brings together a unique and international mix of experts, researchers, and decision-makers both from academia and industry across the globe to exchange their knowledge, expertise, and research innovations to build a world-class Agritech conference. The event focuses on aspects such as Agronomy, Water Management, Weed Management, Drought Management, Plant Physiology ,Agroecology, and Agrometeorology as well as understanding tools to overcome barrier and enable successful data analysis and management. Presentations concentrate not only particular to plant Agronomy but also crop research ranging from wheat, barley, maize, and rice to potato, tomato, Arabidopsis, biofuels and various fruits. Agritech is your best opportunity to reach the largest assemblage of participants from the Agronomy and Agriculture community.
