Breast Cancer 2020 is thrilled to welcome oncologist and women health professionals to the "Imperial City" to attend the much-awaited international congregation of the legendary Breast Cancer Congress series. The 9th European [Congress on Breast Cancer, Women's Health and Therapeutics](#), (Breast Cancer 2020), will take place in Vienna, Austria on October 16-17, 2020. The world's largest breast cancer forum will be commencing on the morning of 16th October, in the presence of the International Organizing Committee.

Vienna, the capital of Austria, is classified as the most prosperous cities in the world. Austria has been ranked as one of the worlds' best healthcare provider, with exemplary international access to medical services. Apart from this, Vienna has been ranked continuously for five years, as the no.1 destination for International Conferences, congress or meetings, making it the ideal place for the fine gathering of oncologist through the [Breast Cancer 2020](#).

[Breast Cancer 2020](#) hopes to seat almost 80+ speakers from more than 20 countries who would be sharing the recent advancements in the understandings of breast cancer, any leads to attaining the cure and therapeutic advancements and many such findings. Apart from the talks Breast Cancer Congress is hoping to provide the platform for distributors and industrialists to interact with the specialist, which we hope would open the market for what exactly is required by the buyers. As the participation includes the young research communities, the congress will also include workshops conducted by experts in field, which we consider is the icing on the top.

The 9th Euro Congress on [Breast Cancer, Women's health and Therapeutics](#), would attend to all the aspects of women health, exclusively focusing on breast cancer, precautions and cure and genetic screening for breast cancer and other women related tumours, also studying the therapeutic options available now. It also hopes to talk about the endemic uproar of tumour and availability of screening centres and enough knowledge among women about tumour around the world.

[Breast Cancer 2020](#) aims to proffer an international platform to unite experts and young researchers through its radical program of plenary talks, keynote lectures, special sessions, poster opportunities, workshops and much more. The [Breast Cancer Conference](#) is carefully designed to seal the gap between the academic research and clinical case studies and hence the session includes not just academic research works but clinical case studies, research on rare disorders and conditions, medical complications involved and also hopes to introduce the attendees with new equipment's and technological advances available in the market.

[Breast Cancer Congress](#), with its evergreen success, moves further with the groundworks to make the upcoming conference

win hands down. We welcome Oncologist and women health experts from all around the globe to join us in this delightful event and make Breast Cancer Congress a prosperous event.
