

Editorial Note for Current Pediatric Research Journal

Sowmya Puli*

Department of Pediatrics, University of Skövde, Sweden.

Abstract

Current Pediatric Research Journal is one of the leading peer-reviewed Journal. The journal is being regularly published on monthly basis since 1996. It is our pleasure to announce that during year 2019, all issues of volume 23 were published online on time and the print issues were also brought out and dispatched within 30 days of publishing the issue online. All published articles of this journal are included in the indexing and abstracting coverage of SCOPUS, ProQuest, China National Knowledge Infrastructure (CNKI), CiteFactor, Secret Search Engine Labs Index Copernicus, Google Scholar, Global Impact Factor (GIF), CiteFactor, Electronic Journals Library, RefSeek, International committee of medical journals editors (ICMJE), Hamdard University, EBSCO A-Z, Virtual Library of Biology (vifabio), Studies receiving funding from a funding organization that is included on the list of PMC and Research Funder Policies or authors having NIH grant were submitted to PubMed.

Keywords: Pediatrics, Editorial, Research Development.

Introduction

Current Pediatric Research Journal is one of the leading peer-reviewed Journal. The journal is being regularly published on monthly basis since 1996. It is our pleasure to announce that during year 2019, all issues of volume 23 were published online on time and the print issues were also brought out and dispatched within 30 days of publishing the issue online.

Over the years, the journal has tried to adapt it to suit the needs of readers and researchers alike by inviting their comments and holding regular meetings within its editorial board. The present study was conducted to evaluate the characteristics of manuscripts submitted to Current Pediatric Research; functioning of peer review and decision-making process; and factors determining acceptance or rejection of these submissions. This investigation attempts to generate the relevant information; and make it available to the readers and authors; for the sake of transparency and sustained interest in the journal publication process. I would like to welcome the new board members and thank the established members for contributing to the success of the journal. The role of a board member includes helping to develop and guide new developments in the journal, reviewing papers, writing editorial commentaries and soliciting original research papers for publication. The same is true for all the wonderful reviewers for the journal in 2018 who I would also like to thank. The reviewer who spends time carefully analysing and constructively criticising an article does so because they hope they will be afforded the same respect by reviewers of their own research work. Reviewing papers is challenging and rewarding work which keeps you at the cutting edge of new developments in paediatrics

Current Pediatric Research Journal during this year also brought out 2nd World Congress on Pediatrics and Clinical Pediatrics, International Conference on PEDIATRICS AND NEONATOLOGY International Conference on Pediatrics & Neonatal Healthcare, which consisted of ~ 25 abstracts.

All published articles of this journal are included in the indexing and abstracting coverage of SCOPUS, ProQuest, China National Knowledge Infrastructure (CNKI), CiteFactor, Secret Search Engine Labs Index Copernicus, Google Scholar, Global Impact Factor (GIF), CiteFactor, Electronic Journals Library, RefSeek, International committee of medical journals editors (ICMJE), Hamdard University, EBSCO A-Z, Virtual Library of Biology (vifabio), Studies receiving funding from a funding organization that is included on the list of PMC and Research Funder Policies or authors having NIH grant were submitted to PubMed.

During the calendar year 2019, AAJCP received a total of 50 papers, out of which 15 articles (58%) were rejected in the preliminary screening due to plagiarism or being out of the format and peer review process. During 2019 around 31 articles were subjected for publication after they are accepted in the peer review process. In the 4 issues of Volume 23 published during the year 2019, a total of 31 articles were published (at an average of 6 articles per issue) of which, articles were published from authors all around the world. A total of 110 research scientists from all over the world reviewed the 36 articles published in volume 23. Average publication lag time of an article was further reduced to 2-3 weeks.

Current Pediatric Research also announces its association with Faculty of Medicine, Pediatric Endocrinology & Diabetes section, King Abdulaziz University Hospital, Saudi Arabia and Department of Pediatrics, Al-Rayan College, Saudi Arabia. Journal will be running its original website:
