

Editorial Note on Biology and Medicine Case Reports

Dear Readers

I am pleased to mention that during the year 2020, all issues of volume 4 were published online well within the time, and the print issue was also brought out and dispatched within 28 to 30 days publishing the issue online. The publication process of our journal starts on the first day of submission. On the first day after the submission of the paper, we upload it to our PreQc portal for the pre quality assessment if the paper is accepted in the PreQc means no plagiarism report is found we assign an editor from our editorial board to assign a reviewer to review the paper. After 24 to 48 hrs we get the reviewer comments and send the file to the editor for the approval. After these things, we go for the article processing (Authorproof, etc.) and after 20 to 21 days we send the galley proof to the author for further correction from the author's side and raise the invoice and send it to the author. These whole things took max to max 28 days and finally, we make the article online on 28th day or 30th day.

Biology and Medicine Case Reports addresses all aspects of biological research and fundamental understanding of the medical science, through the rapid publication of high-quality original research, systematic reviews, meta-analyses and technology reports, commentaries, perspectives and scholarly comments on vast yet significant areas of Biology and Medicine. This is a scientific peer-reviewed open access journal that publishes case reports in all areas of Biology and Medicines. The Journal aims to consider any original research articles, review articles, editorial, news, case reports, short communications, clinical briefs and advances, brief reports on clinical and laboratory observation, correspondence, images, problem-solving perspectives and new updates that expand the field of general biological and medical knowledge. The principal criterion for publication is potential impact on patient care. It intends to promote the latest advances and developmental activities conducted in the expansive field of Biology and Medicine.

The Journal has a well affiliated and recognized Editorial team that is very collaborative. They are basically from JAPAN, ITALY, USA, UK, TURKEY, RUSSIA, BRAZIL, ROMANIA, and INDIA and all are well-established scientists and professors. Globally also the journal has a good impact online.

During the calendar year, 2018 and 2019 BMCR received a total no of 35 papers out of which 28 are accepted and 7 are rejected in the preliminary screening due to plagiarism or being out of the format. During the year 2018 and 2019 total no of 28 articles were subjected to the peer-review process and out of these 19 are accepted. And total no of 11 articles was published on the journal out of which 50% foreign authors.

I would like to express my gratitude to all the authors, reviewers, the publisher, the advisory, and the editorial board of BMCR and look forward to their unrelenting support to bring out the volume 4 of BMCR in scheduled time.
