

Editorial note for ophthalmology case reports.

Emy Carl, London

Accepted on April 15, 2020

I am pleased to mention that during the year 2019, all issues of volume 3 were published online well within the time and the print issues were also brought out and dispatched within 30 days of publishing the issue online.

Ophthalmology Case Reports during this year also brought out 2nd GLOBAL OPHTHALMOLOGY SUMMIT 2019, which consisted of ~ 11 abstracts.

During the calendar year 2019, Ophthalmology Case Reports received a total of 250 papers, out of which 200 articles (80%) were rejected in the preliminary screening due to plagiarism or being out of the format. During 2019 around 30 articles were subjected to the peer-review process and 14 of those were accepted. In the 2 issues of Volume 3 published during the year 2019, a total of 5 articles were published (at an average of 5 articles per issue) of which, 70 % articles were by foreign authors. A total of 50 research scientists from all over the world reviewed the 12 articles published in volume 3. Average publication lag time of an article was further reduced to 4-6 weeks.

During the calendar year 2019, a total of 14 Editors, 18 Reviewers joined the board of OCR and contributed their invaluable services towards contribution as well as publication of articles.

I take this opportunity to acknowledge the contribution of (Catherine Hayes) during the final editing of articles published and the support rendered by the editorial assistant, (Emy Carl) in bringing out issues of OCR in time. I would also like to express my gratitude to all the authors, reviewers, the publisher, the advisory and the editorial board of OCR, the office bearers for their support in bringing out yet another volume of OCR and look forward to their unrelenting support to bring out the Volume 4 of OCR in scheduled time.
