

9th International Conference on Food Science and Technology

Magnus S Magnusson

University of Iceland, Iceland

Abstract

The 8th International conference on Food science and Technology hosted by Allied Academies took place in Dubai, UAE during June 5-6, 2019. It was hosted by Allied Academies and generous response was obtained from editorial board members of our supporting journals as well as from eminent Food Science researcher and young student community. The Conference was initiated with a warm opening ceremony video. The proceedings went through interactive panel discussion and sessions which was headed by Honourable Moderator from India for the Conference. Food Technology 2019 played an important role in promoting multidisciplinary interactions between Nutrition and Health to enhance research in Food Science. The program covered current and emerging research innovations in the field of Food Science.

We are obliged to the various delegates from companies and institutes who actively took part in the discussions. We thank everyone the organizing committee members and editorial board of Food technology 2019 for their gracious presence and continuous support throughout the proceeding of the conference.

Food Science 2019 was marked with multiple sessions, keynote presentations and panel discussions. We received active participation and generous response from organizing committee members, scientists, young and brilliant researchers, business delegates and talented communities who made this Conference as one of the most successful and productive events in 2019 from AAC.

The event was carried through various sessions, in which the discussions were made on the following major scientific tracks
Food Science & Chemistry

Food Technology

Food biotechnology

Food Adulteration

Nutrition and Functional food

Food Chemistry

Food Toxicology

Food Nanotechnology

Balanced Diet

Food Processing and Packaging Technology

Nutrition and Public Health

Quality Management

Application of Food Technology

Advancement in Food technology

Global Food Security

Case Reports on Food Technology

The features of the gathering were the edifying keynote addresses from:

Paola Cane | Mia Solutions | Italy

Jyoti D Vora | Ramnarain Ruia College | India

Annette C Bentley | American Celiac Society | USA

Masahiro Onuma | Trisguide Ltd | Japan

Tamika (Campbell) Sims | Food Technology Communications

International Food Information Council | USA

Claude Billeaud | Association for Pediatric Education in Europe, Germany

Karen E Burke | Mount Sinai Medical Centre | USA

Mike Murphy | Saffron Wellness | United Kingdom

Gerald C Hsu | EclairMD Foundation | USA

Nichelle A Mullins | Charter Oak Health Centre | USA

Prof. M.S Swaminathan | MS Swaminathan Research Foundation | India

Biography

Magnus S Magnusson, PhD, Research Professor Emeritus, founder of the Human Behaviour Laboratory, University of Iceland. Author of the T-pattern, T-string and T-system with corresponding detection algorithms and software THEME TM (PatternVision.com) initially focusing on real-time organization of behaviour. Co-directed DNA analysis.
