

International Conference on Palliative Care and Hospice Care Young Research Forum Announcement for International Conference on Hospice care and Palliative care

Matthew Ellman Samuel,

Professor, Palliative Care, Yale School of Medicine, USA, E-mail: mathew.samuel1996.ms@gmail.com

Hospice care cordially invites Young Researchers from Universities/Institutes/Industries to give a short oral presentation at Hospice care forum. These oral /poster presentations will be 20 mins period in related scientific track followed by 5 minutes question hour. Therefore, presenters are recommended to present complete and dynamic talks.

There will be a number of technical sessions in the Hospice care conference under different topics. This award is provided to the excellent presentation considering each and every presenter of the Hospice care conference, which is the most effective, inspiring, professional and are presented through an authoritative, impactful and engaging speaker. Basing on the suggestion and marks given by the committee for each and every presentation and after the Conference Chair's own reading of the papers, the Chair decides which presentation will receive the young research forum Award.

Hospice care focuses on weakening the pain, symptoms, physical and mental stress that a seriously sick patient goes through whereas being treated. The goal of the care is to assist those who are dying have peace, comfort, and dignity. The caregivers will try and manage pain and different symptoms thus an individual will stay as alert and cozy as potential thus providing some type of relief to the persons' family too.

The Young Scientist Awards make every effort in providing a strong professional development opportunity for early career academicians by meeting experts to exchange and share their experiences on all aspects of Palliative Care and Hospice care.

Hospice care Conference Committee is intended to honour prestigious award for talented Young researchers, scientists, Young Investigators, Post-Graduate students, Post-doctoral fellows, Trainees, Junior faculty in recognition of their outstanding contribution towards the conference theme. The Young Researchers Forum offers young researchers the possibility to meet and discuss research topics and methodologies to share and develop ideas, learn from each other and gain knowledge from senior researchers. Hospice Care organizing Young Researcher Sessions to provide a unique platform for Young Researchers for presenting recent researches with an in-intensity analysis.

Benefits:

1. Showcase your recent research by oral presentations.
2. Learn about profession development and the latest research gear and technologies in your field.
3. This discussion board will supply pertinent and timely details to the individuals who conduct studies and those who use and benefit from research.

4. Develop a foundation for collaboration among younger researchers.
5. The forum will provide an opportunity for collegial interaction with other young investigators and established senior investigators throughout the globe.
6. Interact and share thoughts with both peers and mentors.
7. Opportunity for young researchers to learn about the research regions in their peers to grow their capability as multidisciplinary researchers.

Eligibility:

Young researchers should be Post-Graduate students, Post-doctoral fellows, Trainees; Junior faculties are the focus point for this event. The topic must fit into scientific tracks of the conference. Each individual participant is authorized to submit their one paper (as first author or co-author). None of the authors must have senior position. Participants must be below the age of 33 years. All submissions need to be in English.

Opportunity for young researchers to study the research area of their colleagues to increase their potential as multidisciplinary researchers.

Hope this conference will be more interesting and useful for all the attendees from around the world and You will have a pleasant time at Hospice care 2020 for two days of the conference.
