

## Interventions of Health System in Patient Care Delivery during Covid 19 Crisis

**Ann Mary Holaday**

According to Ayurveda & Yoga, USA

With a continuation of the most successful series, we are glad to announce the next edition of the 10th International Conference on Nutrition, Food Science and technology to be hung on September 08-09, 2021 in Paris, France highlighting the theme “COVID-19 and Food Science: Path for an Opulent Future”

The key vital aim of Food science 2021 is to impart science and medicinal research amongst the academic/scholarly community, and industry, by which promoting top-level research and globalizing quality research in general, making discussions, presentations more internationally competitive, and coming up with a solution to improve the health.

The ongoing COVID-19 pandemic will have lasting effects on people and their nutrition, healthcare, economies, and food systems in all corners of the world. This knowledge hub aims to be a resource for all members to get informed about COVID-19 developments, at large. It also sheds light on important links between COVID-19 and nutrition, hunger, health, and food systems – by bringing together important updates, guidance, articles, and opinion pieces, in its initial stage.

“We’re focusing on the survival of people, but nutrition is a part of this.”

A Call to Action for World Leaders

Nutrition cannot wait!

### **Scope and Importance:**

After the successful completion of the first edition, we take pride to announce the next series on the 10th International Conference on Food Science, Nutrition and Technology slated on February 05-06, 2021 in Barcelona, Spain which emphasis on COVID-19 and Food Science: Path for an Opulent future

Food Science 2021 primarily focus to address Nutritionist, Dietitians, Clinical Nutritionist, Scientist, and Presidents, Founders, CEO’s, business delegates, younger researchers and experts from universities, companies and research labs giving an ideal space to Share insight into the current progression in Food Science and Nutrition research. We have dealt with several Nutrition Meetings which created a breath-taking relation among the experts and associations. Food Science and Nutrition conferences seem basic for the common nationals to remain healthy and fit for the span of life. Food Science and Nutrition conferences are given importance in terms of ongoing research worldwide to ensure the health security which eventually pays attention to open up an opportunity.

Nutritional science examines how the body responds to food. Due to its advancement in technology, nutrition has become more focuses on body metabolism and its pathway. Further nutrition and food science focus on how diseases, pathology, and problems can be prevented and cured with an adorably healthy diet. Apparently, nutrition and food science deal how certain diseases and conditions are caused by a certain dietary factor namely malnutrition, food allergies and food intolerances.

Hence Food science and Nutrition conference depends on the generous exchange of knowledge between the experts to promote the scientific discoveries. Food science 2019 is committed to promoting open, transparent and international scientific exchange on the idea to Nurture the Nutrition Network which eventually contributes to the improvement of efforts to tackle local, national and global impacts of Food science and Nutrition

### **Why Attend?**

Food Science Conference has become a premier among academia, industries, and business firm. Food science conference provides great opportunity to all the attendees in publishing their research results, exchange and share knowledge, and networking with fellow researchers from all over the world. Food science conference includes keynote speech, Oral presentation, Poster presentation, Workshops, Symposium and special sessions for supporting organizations and associations.

Food Science and Nutrition has planned to offer an extensive network among experts from the various field of life sciences across the globe to discuss the latest research and the current challenges in the meadow.

Food science 2021 has been designed in such a way to provide an innovative and comprehensive overview of the latest trends and the potential future in Food Technology and Nutrition. We are pretty much confident that Food science 2021 would serve as a catalyst by connecting scientists within and across disciples under a single roof. It would create an environment to generate new ideas and accelerates its applications that benefit society.

### **Benefits of attending**

Augment the greatest asset you have

Self- renew yourself

Develop the art of marketing

Meet Experts & Influencers Face to Face

Assimilate the vigour of compatible individual

Explode from antiquity

Acquire greater focus

## Target Audience:

- Food Scientists
- Professors
- Industry Professionals
- Directors
- Academia (PhDs Researchers postdocs)
- Food Engineers
- Carbohydrate and Biopolymer Technologist
- Food Technologists
- Microbiologists
- Dairy, cereal, meat Technologists
- CEO's/Leaders
- Ingredients & Processing Aids
- Functional Foods
- Health Ingredient Industry
- Fish & Poultry
- Food Regulations
- Food Quality and Safety

Food Science 2021 Conference is the foremost of Renowned medical scientists, Doctors, Researchers, Nurses, Physicians, University Professors, Research Scholars, and medical students and which consists of Plenary talks, Keynote Sessions, Oral and Poster Presentations, Exhibitions and many more to acquire the knowledge, share your research expertise and receive name recognition and Certificates signed by our world-class eminent organizing committee.

Join us for the two thought-provoking days of the conference which will be the best opportunity and offer a detailed scientific knowledge of technologies and innovations with new developments

We encourage you to take part in and hope the conference will inspire you and results in deciphering knowledge both in the sessions and during the many planned opportunities to socialize throughout the conference.

Share advice, stories and case reports. Build rapport and alliances.

Paris, "The city of lights" is famous for its splendid history and culture. We wish the two-day meeting to be interesting, helpful and fruitful to all the participants, and you will have a pleasant stay in this colourful city.
