

## Multidisciplinary approach patients with chronic/special needs

**Mishal Al Kasimi**

Capital Health LLC, UAE

### Abstract

1. Differentiate Acute vs chronic care needs
2. Appreciate the need for multidisciplinary management
3. Again knowledge about different models for chronic (compressive care)
  4. Understand the Role of the Physician /system with chronic /Special care

Clinical Scenario: Case 1: New patient walks into your office. Parents report that their 5 yrs. old is unable to walk, talk, or self-feed. At times mother reports some jerking movements and “sleepiness”. Mother also reports at times choking/ difficulties eating solid food. Case 2: 61 yrs. old with DM, HTN, Hemiplegia, slurred speech s/p stroke now with a cough on and off for 1 month?

### Biography

Mishal Al Kasimi is the CEO of Capital Health, a private integrated healthcare group headquartered in Abu Dhabi. As the CEO of Capital Health, Mishal lead building and designing first purpose-built rehabilitation hospital in the region, Specialized Rehabilitation Hospital (SRH), which he commissioned and opened second quarter of 2019. He also created and opened Health Shield Medical Center - a multi-specialty same day surgical centre during the second quarter of 2018. A new brand with a new vision that offers exceptional healthcare services for families. Capital Health has gone from just one to over 300 employees in just 3 years under his leadership. It’s been a welcome challenge to lead this young brand in a competitive healthcare space, and with the help of his exceptional team, more international boardcertified doctors than almost any other facility in the UAE, Capital Health is paving a trailblazing path under the guidance of Mishal. A key achievement under his leadership is the recent signing of an affiliation between SRH and the Shirley Ryan Ability Lab (formerly Rehabilitation Institute of Chicago), known as the ‘No. 1 Rehabilitation Hospital in America’ by U.S. News & World Report every year since 1991.
