

Prestigious Award for Young Research's at Transplantation Event 2020

Said Moustafa M Eldeib,

Pediatrician and Neonatologist, Pediatrics, NMC Healthcare Group, UAE, E-mail: saiIdeldeib@yahoo.com

The "13th International Conference on [Transplantation and Medical Surgery](#)" is being held in [Prague, Czech Republic](#) on **October 14-15, 2020**, under the theme "Exploring new standards and latest strategies in pediatric surgery". For the year 2020, Transplantation 2020 will bring significant research and the latest advances in Surgery.

This conference will be a perfect platform where a researcher will be happy to be part of this Transplantation 2020 Conference. The Conference offers a discussion forum, workshops to explore their ideas and encourage close contact between speakers and visitors. The Conference will be attended by most Surgeons, pediatricians, physicians and scientists. Articles will be presented in the form of symposia, plenary sessions, and posters including the research and medical content that the Review Committee carefully selected. Completely, Transplantation 2020 will provide you with a positive and worthwhile experience as part of this international Conference on Pediatrics.

Why to attend??

[Medical doctors](#), patients and health care providers consider the Solid organ transplantations save lives in patients affected by terminal organ failures and improve quality of life. Transplantation is an essential tool to improve the general health status of the population. [Renal transplantation](#) increases patient survival over dialysis, and lifesaving transplants are indispensable to treat patients with liver, heart, or lung irreversible diseases. The proportions of people suffering from the disease are expected to increase in future according a recent statistical survey each day, an average of 79 people receive organ transplants. However, an average of 21 people dies each day waiting for transplants that can't take place because of the shortage of donated organs. In 2013, 28,954 people received organ transplants.

[Transplantation 2020](#) will comprise of many leading keynote speakers and session speakers who will be delivering their speech on the current research topics of bone marrow transplantation, metabolic ailments in kidney transplantation, novel hair transplantation methods, and other technologies related to Transplantation and other risk factors associated with the Transplantation. The young researchers and the student participants will gain the opportunity to grab the Best Poster Award by presenting their work as a poster presentation and Young Researcher Forum.

Transplantation 2020 Conference Awards:

[Surgery Conference Committee](#) is intended to honour [prestigious award](#) for talented [Young researchers](#), scientists, Young Investigators, Post-Graduate students, Post-doctoral fellows, Trainees, Junior

faculty in recognition of their outstanding contribution towards the conference theme. The Award make every effort in providing a strong professional development opportunity for early career academicians by meeting experts to exchange and share their experiences on all aspects of [Transplantation and Medical Surgery](#).

Benefits:

- Our conferences provide best Platform for your research through oral presentations.
- Learn about career improvement with all the latest technologies by networking.
- Young Scientists will get appropriate and timely information by this Forum.
- Platform for collaboration among young researchers for better development.
- Provide an opportunity for research interaction and established senior investigators across the globe.
- Share the ideas with both eminent researchers and mentors.
- It's a great privilege for young researchers to learn about the research areas for expanding their research knowledge.

Eligibility:

- Young Investigators, Post-Graduate students, Post-doctoral fellows, Trainees, Junior faculty with a minimum of 5 years of research experience
- Presentation must be into scientific sessions of the conference.
- Each Young Researcher / Young Scientist can submit only one paper (as first author or co-author).
- Age limit- Under 33yrs
- All submissions must be in English.

[Transplantation 2020](#) provides best platform to expand your network, where you can meet scientists, authorities and CROs from around the world. It's your time to grab the opportunity to join Transplantation 2020 for promoting your research article and to facilitate prestigious award in all categories. In this fame, we look forward for your contribution and astonishing dedication to make our Transplantation 2020 more successful.
