Directors specialists, Investigators, Post-Doctoral Fellows, Research and Diagnostic Laboratories, Clinical Fellows, Students, Biomedical Research companies, Healthcare Institutions, Market Research and Consulting Firms, Pharmaceutical Companies and all other interested participants willing to enhance and update the knowledge may attend the conference.

**Cancer Stem Cells & Oncology:**

The branch of health care that determines the safety & efficacy of medications, devices, and diagnostics and also treatments intended for human use is termed [Clinical Research](#) .These are used for the treatment, [prevention](#), diagnosis and relieving symptoms of the diseases. Clinical research may differ from clinical practice. Clinical Practice uses established process , whereas in case of clinical research evidence is collected for establishing the new treatment using “biological marker” .i.e. Biomarker refers to the category of medical signs or say objective indications of the medical state which is observed from outside the patient – and is measured accurately.

**Importance & Scope:**

[Cancer](#) is second leading cause of death worldwide. Treatments that work for some cancers don't work for the others and sometimes those treatments simply stop working and only a global search for answers will help us get to grip this disease. The conference will provide with an opportunity for the delegates from Universities and Institutes to interact with the world class Scientists and Industry Professionals working in the field of oncology.
