

World Congress on Bacteriology and Infectious Diseases

Hiroshi Ohrui

Professor, Yokohama University of Pharmacy, Japan, E-mail: h.ohrui@hamayaku.ac.jp

Announcement:

[Infectious Diseases](#) Congress 2018

At the Hyatt Place, Amsterdam, the Netherlands, the World Congress on [Bacteriology](#) and [Infectious Diseases](#) was held on June 25-26, 2018. The meeting was set apart with the participation of Editorial Board members from Allied Academies Journals, Scientists, Youthful and Gorgeous Specialists, Business Delegates and Expert Undergraduate Networks speaking to over 15 nations that made this gathering productive and profitable.

Based on the theme "New Evolutionary Trends & Emerging Research World," this conference included the following scientific tracks:

- Infectious Diseases.
- IV/Sexually Transmitted Diseases.
- Virology.
- Bacteriology.
- Fungus Infection and Parasites.
- Rare and Neglected Tropical Diseases.

We are grateful to our members of the Organizing Committee for their generous support for the conference and suggestions:

- Jyotsna Shah-IGeneX Inc, USA.
- Ilya Tsyrov, Xenotox Inc, USA.
- Hiroshi Ohrui, Yokohama University of Pharmacy, Japan.
- Longzhu Shen, University of Cambridge, United Kingdom.
- Salma Mohamed Abdel Rahman, Assiut University, Egypt.
- Tarek M K Motawi, Cairo University, Egypt.

The conference continued through various Scientific Sessions and Plenary Lectures, highlighting as keynote presentations the following topics:

- Method board for diagnosing borreliosis (lyme disease and relapsing fever): Jyotsna Shah, IGeneX Inc, USA.
- EFdA: Extremely excellent anti-HIV nucleoside, - from concept to latest clinical trial results: Hiroshi Ohrui, Yokohama Pharmacy University, Japan.
 - Specifically, the threat of zoonotic diseases and Ebola virus disease: Stef Stienstra, Royal Dutch Armed Forces Command, Netherlands.

Co-chairing research sessions were: Hiroshi Ohrui, Pharmacy University of Yokohama, Japan.

Allied Academies took the great benefit of congratulating the Organizing Committee of Infectious Diseases Congress 2018, the members of the Editorial Board and keynote speakers who sponsored this opportunity.

The observed guests, keynote speakers, recognized scientists and leaders expressed their innovative work and vast experience by bringing them to the Infectious Diseases Congress 2018 forum. We are pleased to highlight that every recognized dynamic for the meeting was distributed as an uncommon issue in the Virology Research Journal.

Additionally, we are obliged to various agent specialists, organization delegates and other prominent characters that encouraged dynamic discussions to support the meeting. We are really grateful to the members of the Organizing Committee for their benevolent closeness, support and help. With the remarkable and positive input from the gathering, Allied Academies may want to report the launch of the "World Congress on Bacteriology and Infectious Diseases" in Vienna, Austria, on October 12-13, 2020.

With an extraordinary achievement of the [Infectious Diseases](#) Congress 2018, Allied Academies unequivocally respects all individuals from driving schools around the globe, looks into establishments, illustrative associations and all intrigued to distribute their assessment experiences "On the Planet Congress on Bacteriology and Infectious Diseases" in Vienna, Austria, on October 12-13, 2020.

The conference brings together people who are interested in the fields of irresistible disease, bacteriology, microbiology, and going towards the event provides the best stage to explore the thoughts and concerns that are concerned about the relevant topic and establish arrangements.

This brings together each member from across the globe. It is a stage of sharing their experiences and opinions to discuss the effects of the study to be applied in further research work. We invite you to join us on our website. You can find out about participation in the general public, the diary of the general public, our newsletter, and meetings on this site.

Thanks and Regards,

Leon Bezos
