NanoRegMed Ltd , United Kingdom, E-mail: a.sefalian@gmail.com

Best Keynote Speaker

This award is important part of Wound Care 2020 to acknowledge the ground-breaking research represented by the Keynote speakers at the Wound Care 2020. This highly recognised award is made to the authors of the paper judged by peer scholars as the best presented at the conference. The awards are open to research scientist and faculty from any nationality. Any scientist relevant to wound care will be eligible, including (but not limited to) regenerative medicine, podiatry, tissue science, tissue engineering, plastic surgeries, biomaterials, tissue repair or various hybrids. Awardees will be selected based on need and submission quality.

Best Poster Award

The Best Poster awards are awarded at the Conference Series conferences for the best titles portrayed by Faculty / PhD students / Post Docs. A combination of excellent research, project creativity, innovation, and way of representation is rewarded. The expert panel will review each poster session.

Awardees are chosen on site (posters not attended will not be accepted at their scheduled time) and award winners will be announced during the meeting. Both awards include an International Organizing Committee approved certificate of recognition. In the relevant Conference Series journal, each best poster winner will receive a 70 percent reduction in the manuscript publication.

- A poster is a way to present your work in visual format to an audience. Allied Conferences offers a unique opportunity to present your work in the style of a poster.
- Unique opportunity to incorporate visual and verbal descriptions of your proposals in the form of the
- Best Poster Award poster presentation: 3 best posters will be presented at the conference closing ceremony
- The entire approved poster abstract will be published in credible and supportive foreign newspapers with a special DOI provided by CROSSREF
- Best posters will be given the opportunity to publish the complete poster.

The selection of the winner will be based on:

- The following three parameters will be used to evaluate posters: Introduction Style (5), Research Quality (5) and Layout / Design (5).
- Poster clarification introduction and verbal description.
- Poster Judges answer the questions and the comprehensiveness in full

Wound Care 2020 Young Scientist Awards

The aim of the Wound Care 2020 Conference Committee is to recognize prestigious awards for talented young researchers, scientists, young researchers, post-graduate students, post-doctoral fellows, trainees and junior faculty in recognition of their outstanding contribution to the theme of the conference. The Young Scientist Awards make every effort to provide early career scientists with a good professional development opportunity by engaging with experts to exchange perspectives on all aspects of Wound Care and share them.

Young Research Awards for the Nomination at Wound Care 2020: Young Researcher Forum- Outstanding Masters/Ph.D./Post-Doctoral Thesis Work Presentation, only 25 acceptable presentations at the Wound Care 2020 Youth Research Forum.
