

ECG Interpretation-A review of STEMI patterns and their mimics

Gregory D Chapman
University of Alabama, USA

St elevation MI is a medical emergency and prompt recognition and treatment saves lives. Current strategies for prompt recognition and treatment will be presented, as well as a validated (via cardiac catheterization) ecg module that demonstrates ecg findings with STEMI, as well as conditions that mimic STEMI.

Speaker Biography

Gregory D Chapman, MD, FACC is a Professor of Medicine/Cardiovascular Disease at the University of Alabama at Birmingham. He has published commentaries and research papers in The New England Journal of Medicine, Circulation, the American Journal of Cardiology, and the American Journal of Medicine. He is now in his third decade of practice as a cardiologist, with experience in academic and private practice settings. His interests include STEMI recognition and treatment, as well as the diagnosis of acute coronary syndromes and their mimics. In addition to an active clinical role, he enjoys teaching residents in internal medicine, emergency medicine, and cardiology.”.
