

# DENTISTRY AND DENTAL MATERIALS

December 11-12, 2019 | Dubai, UAE

Anas Karkout, J Clin Dentistry Oral Health 2019, Volume 3

## **LASER IN THE DAILY PRACTICE, A STEP FORWARD**

**Anas Karkout**

Damascus University, Syria

It's a great time for dentists to consider an update to their practices! This can be achieved through using new technologies such as Laser. Unlike traditional tools, dental lasers can improve their patients' experiences by eliminating anesthesia, pain, bleeding and fear, as well as accelerating the healing. In this lecture author will discuss all the laser advantages and disadvantages, and the importance of using laser in Biostimulation, periodontal pocket disinfection, root canal disinfection, cavity preparation, depigmentation, gingivectomy, frenectomy, orthodontics, fibroma excision, impacted canine exposure, coagulation, tooth whitening, pain relief and periimplantitis.

## **BIOGRAPHY**

Anas Karkout was graduated from Damascus University in 2009. He got his Master Degree in Dental Laser from Damascus University in 2012. He has been practicing Dental Laser since 2012 in Dubai, UAE.
