### Title: New Horizons and global perspective in Brain and Spine research

We feel glad to inform that with support of the speakers, young and brilliant researchers, from all over globe; allied academics successfully completed **3<sup>rd</sup> international conference on Neurology and Brain Disorders** which was held in Dublin, Ireland during **June 19-20, 2019**. With its huge success we welcome participants from all across the globe to attend our upcoming conference. The conference proceeded through various Scientific Sessions and the following keynote lecturers by the eminent professionals.

The below are the respective titles of the keynote speakers:

- **Title:** Altered heme iron homeostasis in Alzheimer's disease

**Li Zhang**, University of Texas, USA

- **Title:** The effect of transcranial electrical stimulation on neurophysiology and mental health in clinical case

**Monica Berntsen**, Training Brains, UK

With a huge response from our previous conference, it motivated us to organize **5<sup>th</sup> international conference on Brain and Spine** which is going to be held during **March 16-17, 2020 at Kuala Lumpur, Malaysia** with the theme "New Horizons and global perspective in Brain and Spine research" which covers a wide range of critically important sessions related to neurology and neuroscience.

[Brain and Spine 2020](#) is looking for the doctors, researchers, young and eminent speakers, top proficient delegate, scientists, students from different universities, hospitals from all across the globe and will highlight various topics which include neuroscience, neurology, brain injury, mental health, spine surgery and many more. The conference is expecting eminent keynote presentation, Oral presentation, poster presentation, video presentation, Moreover the Best Poster award and Best speaker awards will be distributed by the Chair and co-chair of the session.

Brain and spine 2020 conference provide great opportunity for students as students can explore their research work and learn new research work from the eminent speakers by interacting with them.

Sessions:

[Brain injury and neuroscience](#) | [epilepsy and brain disorders](#) | [focal seizures](#) | [spinal cord injury and regeneration](#) | [spine and spinal disorders](#) | [addictive disorders and alcoholism](#) | [back and neck surgery](#) | [ankylosing spondylitis](#) | [cervical radiculopathy](#) | [joint replacement surgeries](#) | [bursitis](#) | [degenerative disc disease](#) | [arthritis](#) | [mental health, psychiatry and psychological disorders](#) | [spine birth defect](#) | [depression](#) | [brain and cognition behavior](#)

An upcoming **6<sup>th</sup> international conference on Brain and Spine** with the theme "**Strategies and Challenges in Neuroscience and Neurological Disorder**". A Neurological disorder is a disorder of the Nervous system. There are more than 600 types of Neurological Disorders. The conference will focus on the latest research and various tools to treat diseases in a convenient way.

Allied academics is an organization which conduct conferences and publish articles within the realm of business and management. The Allied Academies held a very successful joint meeting the organization are looking for young researchers, eminent persons from the academic and business executives to achieve success for the growth of the scientific community from all over the world.
