Dear Readers,

We are very much delighted to mention all of you that we have completed our 4th successful year in the arena of publishing and research on Pulmonology. Over the past 4 years we have spread our wings across the globe and have collaborated with many scholars, researchers and budding scientific community who has contributed to our growth and success. Our combined continuous efforts has received a tremendous response and attracted billions of readers across the globe. During the year 2019, all issues of volume 4 were published online well within the time and the print issues were also brought out and dispatched within 30 days of publishing the issue online. Journal of Pulmonology and Clinical Research has published articles related to Clinical Practice, General Practice, Generic Medicines, Health Care, Health Care Systems, Health Informatics, Health Services, Healthcare Delivery System, Healthcare Environment, Healthcare Organizations and Systems, Medical Practice, Medical Services, Medical Statistics, Mental Health Nursing, Mid-Wife Practice, Nurse Practitioners, Nursing Care, Nursing Science, Patient Care, Preventive Medicine. Out of all the papers published Most of the papers were from United States of America, India and African subcontinents. Average publication lag time of an article was further reduced to 45 days. Journal of Pulmonology and Clinical Research is an International peer reviewed, open access journal that provides wide range of knowledge on current on-going clinical practice and research about Pulmonology and healthcare professionals who care for people with acute and chronic illness in emergency conditions. The journal creates a platform for the authors to contribute through their research and scholarly outputs. As prevalence of various health issues is increasing worldwide, it is imperative through research that we understand diverse risk factors, evaluate the efficacy of Pulmonology care and deduce the ideal care strategies. The editorial office promises peer reviewing of the submitted manuscripts to maintain quality. The journal aims to publish the most complete and reliable information on discoveries and current developments in the field of Pulmonology and Clinical Research. Journal of Pulmonology and Clinical Research publishes original research, review articles, case studies, editorials and clinical images of Pulmonology and Clinical Research . The journal also includes but does not limit to various fields of research upon Pulmonology while providing care for Acute and Chronic Illness, Pain management, Critical Care, Rehabilitation, Cardiovascular Care, Chronic Disease Management, Healthcare, Stroke, Primary and Secondary care, palliative care, Health Education making them available online to worldwide researchers without any subscription fee.
