Editorial

Asian Journal of Biomedical and Pharmaceutical Sciences (AJBPS) is an open access, peer reviewed journal that publishes scholarly articles on recent innovations made in the field of Biomedical and Pharmaceutical Sciences.

AJBPS international multidisciplinary monthly Journal, which publishes original research article, short communications, invited reviews, Opinions & Perspectives and Book Reviews in biomedical and pharmaceutical sciences. The journal comes under the Allied Academies publisher which handled one thousand+ conferences in 2019, across the USA, Europe & Asia.

The Journal is using Editor Manager System for easy online tracking and managing of the manuscript processing. In this tracking system authors can easily submit the article online and access the status of article, Editors can convey their decision in all submitted articles. To be acceptable for publication, an article should be certainly considered by two specific reviewers followed by the Editor's consent. AJBPS accept different types of articles including research, review, case reviews, commentaries, hypotheses, meeting reports, editorials, and short reports.

The journal is using social media to spread awareness and to showcase its articles published. Usage of Twitter, LinkedIn, Facebook and other social media applications to upload materials related to the journal background.

I am delighted to discuss about the year 2019, all issue of volume 9 were online well within the time.

More number of articles were published in volume 9 and the articles submitted by different foreign authors. In 2019, the journal has published many scholarly articles related to the journal topics such as Pharmaceutics, Biopharmaceutics, Pharmacokinetics, Pharmaceutical/Medicinal Chemistry, Computational Chemistry and Molecular Drug Design, Pharmaceutical and Biomedical Analysis, Clinical Research, Pharmacy Practice, Clinical and Hospital Pharmacy, Cell Biology, Genomics and Proteomics, Pharmacogenomics, Bioinformatics and Biotechnology, Anatomy, Physiology, Biochemistry, Molecular Biology, Cell biology, Genetics, Hematology, Pathology, Immunology, Microbiology, Virology, Parasitology, Surgery, Dental Sciences, Sports Physiology, Histopathology, Toxicology and all major disciplines of Biomedical Sciences, etc. The printed versions of the articles were sent to the authors who requested for it and were sent within 30 days of publishing the issue online. In these 9 years, the articles were published with rapid peer-review process and we are expecting to do so in future.

2020 Objectives: The journal has planned many strategies for this year [2020]. We are going to cover maximum areas in biomedical and Pharmaceutical Sciences and various other fields which come under biomedical Sciences and will try to acquire all the fields.

I would like to express gratitude to all the authors and reviewers, the publisher, the advisory and the editorial board of Journal. I hope this support will be continued by all of them and maintain the standard of the Journal.
