

Past Conference Report of Critical Care 2020

Yifan Zhu

Henan University Huaihe Hospital, China.

Editorial

The International conference on critical care and emergency medicine was held in Dubai, UAE, during December 14-15, 2020.

Critical Care Conference 2020 will focus on educational research directed toward its impact on clinical outcomes, through oral and poster presentations, educational workshop sessions, and influential plenary presentations. Attendees will be provided with the tools to enhance programs to make education more effective in critical care and emergency medicine practice.

MeetingsInt extend its warm gratitude towards all the Participants, Eminent Speakers, Young Researchers, Delegates and Students. We would like to specially thank the following people who laid the foundation for the event's success.

Name of some of the speakers and their abstracts:

Evangelia Michailidou, The Dunning-Kruger Effect and its meaning at critical care and emergencies.

Jan Beute, Drug Repurposing in PDE3-inhibitors; good drug wrong indication.

Emiel Boon, Severe dynamic hyperinflation during mechanical ventilation in asthma and COPD; the role of neurally adjusted ventilatory assist (NAVA).

Sindhu Sapru, Theatre handover of surgical patients to ITU/PACU- an audit.

Prashant Khadanga, Electronic referral system for critical care - A patient safety and quality improvement project.

The International conference on Critical care and Emergency Medicine was held in Dubai, UAE, during December 14-15, 2020.

Note: This work is partly presented at International Conference on Critical care and Emergency Medicine (December 01-02, 2021| Dubai, UAE)
