

Young Research Forum Announcement for Cancer Nursing 2020

Adrian Udrea

Medical Director, Co-Owner la Medisprof Cancer Center, Romania, E-mail: adrianudrea@medisprof.ro

The organizing committee of [Cancer Nursing Conferences](#), organizing the esteemed event, **17th International Conference on Oncology Nursing and Cancer Care** scheduled to be held on March 4-5, 2020 in Edinburgh, Scotland with the theme of *“Innovating the Future to Fight Cancer”* is proud to announce its Young Research Forum which aims at gathering the young minds which involve students, recent graduates, etc from around the world in order to provide them with a platform to share their ideas and innovations to research results with experienced mentors and scientists who can assist or suggest their valuable opinions for the same.

[Cancer Nursing](#) 2020 aims at focusing the current progressions that can directly affect the future developments in the field and to get the young researchers who are going to serve the future world a hand on healthy discussion panel with the most skilled professionals in the era.

The event strives to motivate and educate the young mind by shaping them in the hands of the most skillful and educational scientists and doctors in the field of [oncology](#) and cancer nursing. The event will provide extreme networking opportunities which will provide the young researches with an opportunity to get their works (may it be on going or finished results) reviewed by peers and seniors alike.

The young scientists and academicians in the field can prevail the benefit professional development by networking with the experience experts in the field of [cancer](#) along with sharing ideas to open new paths of innovation with panel discussions with their colleagues and peers where they can have the benefit of learning from each other in a friendly environment and build a collaborative foundation towards the growth in the field and efforts by young scientists.

The conference paper must include original ideas that have not been published earlier in order to have a qualitative analysis and choose the best young researcher among the crowd of scientists. The criteria to be enrolled under Young Research Forum includes young researchers, graduates and post graduate students, post-doctoral fellows, junior faculties and trainees who are under the age of 33 years.

The submissions must be authentic and genuine to the core and must be made in English under any of the

*17th International Conference on Oncology Nursing and Cancer Care
Edinburgh, Scotland |March 4-5, 2020*

Conference highlights which will be reviewed by experts and experienced professionals relevant to the field. The researchers can avail the benefit of getting reviews and solutions to unsolved problems from resource persons in the field of [cancer](#) and circulation of data among the young scientists.

The Best Young Research Forum Award will be presented to the scientists whose contribution and innovation will have the initiative to bring revolutionary changes in the field of [Cancer Nursing](#) and the submitted paper will be published in the Allied academies Publishing Group journals.

We welcome the young minds from around the globe in the field of cancer who are already working hard to present the health of the population with a better future. We await your honorable presence at the fruitful event.
