

## Young Researchers Forum at 2<sup>nd</sup> International Conference on Cancer Science and Cancer Therapy

### Adrian Udrea

Medical Director, Co-Owner la Medisprof Cancer Center, Romania, E-mail: [adrianudrea@medisprof.ro](mailto:adrianudrea@medisprof.ro)

The 2<sup>nd</sup> International [Conference on Cancer Science](#) and Cancer Therapy will be held in **Toronto, Canada** from **September 09-10, 2020**. This yearly meeting composed of an eclectic fusion of top young life science researchers (doctoral and master students), renowned international scientists, post-doctoral fellows and representatives of several grant-funding agencies and science policy makers to generate an international networking and fruitful associations.

The program features oral talks, posters and panel discussions where participants have frank discussions on a broad range of topics. Senior Doctors and Scientists, define their own scientific journeys offering amusing as well as inspirational narratives about their experiences of initiating their scientific careers.

The [Cancer Therapy Conference YRF](#) being organised with the sole intention of appreciating and encouraging young researchers (those under 33 years of age and early career researchers) to interact and learn from their seniors, to get a hands-on experience in the working of the society and mend the society with their stimulating ideas. Together with other initiatives emerged in many research areas of cancer, the young researchers forum marks the awareness and the desire of PhD students, postdoctoral fellows, trainees, junior faculty, young researchers, young engineers to play a vital role in the scientific progress.

### Benefits of Attending

Hone your career skills, Experience presenting to a multi-disciplinary audience, Raise your profile, build networks, and find ideas and inspiration, Learn about career development, latest research tools and technologies in the field of Cancer and Oncology.

Develop a base for association or collaboration among young scientists, YRF offer relevant and appropriate information to those who conduct research and those who utilize and gain advantage from research

The Cancer Therapy Conference YRF Award is initiated to increase motivation among young researchers contributing to research and development in cancer, Cancer treatment, [Immunotherapy](#), Oncology and more. This is a new award that identifies early career brilliance and is open to PhD students and researchers to combine a dimension and perspective into their research, supporting young researchers, students in their quest to advance the frontiers of Cancer research. The Young Researchers' Award is granted by Cancer Therapy 2020 to researchers demonstrating excellence in their research contributions.

Researchers applying for the **Cancer Therapy 2020 Young Researcher Award** should send a letter of recommendation from a senior faculty member or their research advisor along with their resume via email along with the submission of their abstract at <https://cancertherapy.alliedacademies.com/young-researchers-forum>

The award winning papers will be considered for publication in the Allied Academies Publishing Group journals after the standard review procedures.

Attend the [Toronto Cancer Therapy Conference](#) Young Researchers forum to present your work to an audience of leading researchers, experts, pharmaceutical companies and hospitals, to network with PhD researchers and industry professionals with a passion for great research and to discover the range of cancer and cancer therapy research happening across the globe. During the two days, participants will have an opportunity to explore and to experience local traditions of Toronto.
